Office News:

Parent(s):

At this time, Returning to Daycare may be stressful and difficult for some parents. This is a normal reaction, and can leave you feeling a bit overwhelmed. With all the new health & safety protocols that have been put into place, for Daycares / Out of School Care Programs. These are for the safety of your child, you, the other families and our staff. We are trying to make them as unobtrusive as we can, to lessen your stress.

PLEASE remember that even though these can be overwhelming and stressful on you as the Parent, they are also just as overwhelming and stressful for your child.

Children:

Coming back to the Daycare might just be so exciting that your child(ren) will be over stimulated, waiting to get back together with their friends! The changes may cause some children stress and being unsure and uncomfortable. We as parents and as caregivers totally understand where they are coming from. We will reassure and talk about the changes and what we are going to do as a group to help. Children like to be included and asking them for their ideas and suggestions can be very therapeutic for them. This gives them a feeling some control over the situation.

Working together we will make the transition as easy as possible and as fun as can be!!

HEALTH & SAFETY POLICY UPDATED - COVID 19 Protocols & Policy are Posted at the Entrance, if you would like a copy Please ask!! They are also posted on the website: bridlewooddaycare.ca

Please Note: that these may change & will be updated as AHS changes regulations through this time of the pandemic.
